Description

General Information on all 225 Gravity / Self Feed Wood Chippers:

- Ritlee now have well over 600 units working throughout RSA (Mix of Trailer and tractor mounted)
- Can chip brush and wood to a diameter of 180mm when wet you lose some 20% as wood is dryer.
- It is a self fed chipper - Once blades grab material they pull material in while chipping.
- Please remember: As with any wood chipper, thick & rigid side branches of material fed, stop feeding if too thick or bulky to enter the chipper throat which is 258 x 200 mm.
- Will chip from brush to wood logs of +180mm
- 225 can chip soft wood like Banana, Strelitzia, Tea Tree, Palms, Coconut etc. with ease.
- 225 can chip hard woods like Wattle, Gum, Bug Weed, Nut Trees, Citrus Trees, Avo Trees etc.
- Unit has 360 deg discharge rotation.
- Average volumes are about +10 cu meter of chips per hour of hard wood and well on 20 cu meter per hour doing for example tea tree.
- Average chip size 10 to 15mm thick
- Fitted with a 12mm thick, precision balanced drum with 2x blades
- Blade is sharp on 2x sides, weighs 2.8kg with dimensions 26.6cm (L) x 12.7cm (W) x 1.27cm (Thick)
- Please see below slides for picture illustrations of Blades used, anvil mounting etc.
- This unit is also ideal for Tea Tree, bananas, Coconut, husks, palms, reeds. etc
- Complete with PTO and hitch pins
- Requires Tractor upwards of 40hp
